Dear Mr. Weisberg:

I am enclosing my check for two of your books on the J.F.K assassination and look forward to receiving them.

If you could possibly suggest any further sources of information or any kind of organization to which I might write regarding any new evidence would deeply be appreciated. I am doing, and have been involved in research, and as of yet have not read any books written by you, so I am anxiously awaiting my order.

Thank you.

Sincerely
Mary Davis
